

MCNAIRY COUNTY TRUST DEEDS 1855 - 1877

This was a very interesting book to transcribe. The terms and phrases used some times were very descriptive. Many times it was a crop advancement in the spring or before crop gathering time. Often the gin to use was indicated, which we included to show the various gins during this time frame. Sometimes it was a trust deed and land would be mortgaged for a debt usually owed to another person other than the trustee. The From usually means the person owing the money. There are several Power of Attorney's listed and we tried to show who, where and why. There are errors in this transcription although it was proofed twice. Sometimes writing is hard to read and sometimes sentences hard to understand. Records were typed, proofed and compiled by Dorothy Smith, Helen King and Nancy Kennedy.
